

October 12, 2016

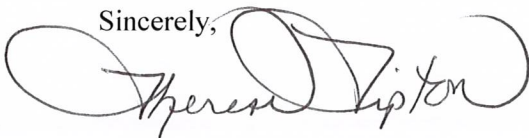

Dear Mike and Doug –

On behalf of the entire Raisbeck Aviation High School Community, I would like to thank you and Kenmore Aero Services for your commitment to education and substantial donation to our school. It is appreciated more than words can say. Thank you so much for visiting our school last week – it was truly a pleasure meeting both of you! I look forward to seeing you again later this morning here at RAHS.

Our school plan is to utilize your generous donation in a 3-part manner, aligning with our school mission of preparing *every* student for college, career and citizenship under the lens of aviation and aerospace. The first tier of this donation will be utilized for our 9th grade transition and citizenship plan. Our entire class of 2020 will be able to participate in a leadership forum which will focus on character, leadership and integrity practices leading to a positive contribution to our community. The second tier will focus on college prep, enabling us to add a layer of rigorous aviation curriculum to our Advanced Placement courses. One of the hallmarks of any successful school is the integration of a rigorous and meaningful course of study. And finally, the third tier will be layered with our focus on careers in the aviation and aerospace industry, enabling us to support our ACE, AIAA, Women in Aviation and other clubs with opportunities to interact and work with mentors and leaders in the industry.

I can furnish you a more detailed plan and update if you wish. Again, we are incredibly appreciative of your generosity and look forward to a long and beneficial partnership for our future leaders in the industry.

Sincerely,

Therese Tipton, Principal
Raisbeck Aviation High School
