

October 2nd, 2016.

To Whom It May Concern,

Please consider this letter my official support of Kenmore Aero Service's proposal to be accepted and its lease to be renewed in its current location at Boeing Field/King County International (KBFI). As the creator and founder of Flights Above The Pacific Northwest (FATPNW), an active community of over 4,700 pilots and general aviation enthusiasts in the Northwest region, I can attest to the fact that Kenmore Aero Services continually supports general aviation at KBFI and offers ample incentives for GA pilots to make Boeing Field a routine flight destination.

During the past year, Kenmore Aero Services has provided numerous benefits to the GA pilot community, including reduced prices on fuel, free transient parking for aircraft, full use of their facilities, whether it be simply an area to study or a place to relax between flights, and even hosting a truly welcoming Open House that drew hundreds of guests from around the region, helping to bring awareness of what an incredible airport KBFI truly is.

In a time where GA is alive and well in our region, it is increasingly evident that KBFI benefits greatly from having Kenmore Aero Services on the airport. They have an open door policy for all GA pilots and guests, which makes KBFI a friendly and inviting location to land. Within Flights Above The Pacific Northwest (FATPNW), I have heard only extremely positive comments about the services offered at Kenmore Aero Services, and FATPNW Members love having a place to feel at home when they land at KBFI.

I highly recommend Kenmore Aero Services be granted a full lease at their current location. If you have any questions or would like to speak in more detail, please feel free to call me at (206) 372-4533.

Sincerely,

Brice Van Baren  
Founder – Flights Above The Pacific Northwest (FATPNW)
